Instagram Plus APK is known worldwide as the modded version of Official Instagram with the inclusion of the latest features that Instagram lacks. This similar version of Instagram is developed with additional privacy options and most of all you can download pictures and videos by using this Instagram Plus APK 2021. Moreover, it is an improved version of Instagram and allows the user to zoom in any profile picture by simply double-tapping. In addition, Instagram Plus Apk is designed with so many surprising settings like you can turn on the videos sound by default. In this way, whenever you will watch the video it will play with the sound. Also, Instagram plus the latest version 2019 is an interesting alternative app which offers extra features than the Official Instagram. This app also seems quite stable so, it is a feasible alternative for any regular android user of this well-known social app. Furthermore, Instagram Plus Apk provides official updates that will never harm your android device and you can enjoy the remarkable features of this app. Most importantly, this modded app is known to be 100% safe for Android users. Another great feature is that Instagram plus allows you to update the base and fix the bugs. Thus, you will love its features after downloading this outstanding app. Like GbWhatsapp WhatsApp Plus & FMWhatsApp APK Consequently, not any other social app will offer you such cool features than the Instagram Plus Apk does. In fact, not any other Mod version is offering such amazing features. All the additional features of this app will surprise you after you have installed this modded apk. In this article, I will provide you with the latest link to download Instagram Plus Apk 10.20.0 on your Android devices. Download Instagram Plus File Information: App Name Instagram Plus Version 10.20.0 Last Updated 1 day ago App Size 25.38 MB Total Downloads 40,000+ Developer David Download Now Why Insta Plus Apk is not available in the Play store? There are millions of social media applications available in the play store, and to be there the apps need to fulfill some set of rules as directed by Google. In the case of Insta Plus Apk, it does not fulfill the rules set by Google. This is the reason, why Instagram Plus Apk is not available in the play store. Insta + for PC: If you want to use Instagram Plus Apk on your PC then you can download it by following the steps mentioned below. First of all, download an Android Emulator on your PC, such as bluestacks player or noxplayer. Once you have installed the Android emulator on your computer, you can open the Play store. Next, download the Instagram Plus Apk from the play store. After this, install the app on the emulator. It is done, now start using the Instagram plus latest apk on your PC. In this section, I will share some of the additional and important features of Instagram Plus Apk that makes this app popular and special than the Official Instagram. Download Photos and Videos: Are you unable to download your friend's photo uploaded on their profile? Yes, then by downloading Instagram Plus 2019 you can simply and easily download the particular images and videos by the downloading option. In fact, by having the Official Instagram you cannot enjoy this feature. Thus, you can download and save any media file in just a few seconds, no matter where you have found it. Download Instagram Stories: No doubt 90% of the people have downloaded Instagram+ so that they can download the stories. The Instagram Plus Apk comes with the story Downloading options which are quite amazing. This is the main reason why this app has become popular. You can download the story whether it is a picture or a video. Regardless of whether that person is your friend or not, you can download all the Public stories without facing any trouble. For this reason, you can simply open the Status, and click on the Download button from that status screen. View Profile Pictures in Full Size: By having Official Instagram, you can never see any person's DP in full size even if that person is following you as well. But here, the coin is flipped when it comes to Insta plus latest apk. It is solely designed by the developers to provide those features that the Official Instagram lacks. Hence, by using Instagram plus you can see the enlarge DP by simply long-tapping the respective profile picture or DP and yes you can download that file as well. Download Now Therefore, Instagram Plus latest Apk is designed with the features that other Modded app do not have. Apart from this, it also contains all the features of Official Instagram as well. Its latest and incredible features are the main reason why users do not come back to Official Instagram.
